

Dress Code

Although our student employees are students first, they are an extension of Fresno State and therefore, should dress in attire that is appropriate for their particular position of employment. This means not wearing something that is too revealing. For example:

- No tops that are sheer, too low or cropped
- No pants that are too tight; no rips or holes
- No skirts that are too short
- Shorts are never appropriate
- Flip flops are never appropriate and are a tripping hazard

Please be sure to provide students with **clear expectations** of what is appropriate for the specific department they will be working in. Don't forget, there is also the Student Clothing Closet for all students located in The Career Development Center in Thomas Building, Room 103. Please refer to the Timekeeper Manual, page 7.
